

Report on NSS Day Celebration

Date: 24/09/2020

On the occasion of NSS day, 24th September 2020, NSS Unit of Comrade GSP College, Talasari organized a series of social events for the enthusiastic students to come forward and contribute for a well-being. All activities were carried out following all norms of covid-19 guidelines and students were appealed to participate from their respective areas. There were three events including cleanliness drive, anti-plastic campaign and cloth bag distribution which highlighted the theme of cleanliness and environment awareness.

1) Cleanliness drive

The celebration began with a cleanliness drive at 9:30 am. Around 50 NSS volunteers participated in cleaning, dusting and other mopping processes from their respective homes. In a very systematic manner, all the students got divided in different groups and allotted a separate area and cleaned the surrounding areas with sufficient number of brooms, dust pans, dust bins and garbage bags. A neat and clean atmosphere was created the area was observed as dust-garbage free.

2) Anti-plastic campaign

The NSS volunteers also spread the anti-plastic awareness among communities by demonstrating them the adverse effect of plastics and how it's harmful for the nature. Some of them chanted out strong appealing slogans and effective messages on anti-plastic awareness, waking up every mind and making them aware about the very necessary information regarding the environmental issues due to use of plastic bags.

'Energy conservation is the need of the hour' - Dr. N. S. Lingayat Webinar Organized On 'Energy Conservation' At Comrade Godavari Shamrao Parulekar College, Talasari

NSS department of Comrade Godavari Shamrao Parulekar College, Talasari organized a one-day webinar on 'Energy Conservation and Solid Waste Management' on 1st September 2021. Dr. N. S. Lingayat was present as the keynote speaker and guide of this webinar. The webinar was organized on Google Meet in a virtual manner.

At the beginning of the event, NSS program Officer Prof. Dipak Wakde introduced all the dignitaries present and explained the purpose of organizing the Webinar. Principal Dr. B. A. Rajput inaugurated Webinar and highlighted the purpose of the Webinar and various activities of the college. He asserted that in modern times, while the whole world is being powered with the help of energy, there is a need to conserve more energy and make an important contribution to it.

Dr. Nitin Shivappa Lingayat of the external faculty of PCRA guided the students in Webinar. Starting with the current energy situation, Dr. Lingayat explained the need for clean energy sources. In the first part of the Webinar, the basics of various clean energy sources such as solar, wind, geothermal, wave were discussed. The present initiatives of the Government of India, the targets and achievements so far were presented in detail. In the second part of the Webinar, Dr. Lingayat discussed energy conservation and solid waste management, and various techniques. He presented a case study of a solid waste management plant, Saligaon-Goa. The students participating in the closing session asked for their doubts and the coordinator thanked them.

The event was hosted by NSS Programme Officer Prof. Dipak Wakde and NSS Programme Officer Prof. Ritesh Raichana proposed a vote of thanks. Around 70 participants were present in Webinar. All the participating students responded positively. The NSS department of the college made special efforts to bring success to the event.

Report on Tree Plantation

Adivasi Pragati Mandal Sanchalit Com. Godavari Shamrao Parulekar College of Arts, Commerce and Science, Talasari, Dist- Palghar celebrated 104th birth anniversary of great social worker and revolutionary activist Com. Godavari Parulekar on 14th August 2019 by planting trees.

NSS Units of college launched an extensive Tree-Plantation Programme on the occasion of the birth anniversary of Com. Godavari Parulekar in different parts of Talasari and nearby locality. NSS department of college instructed the volunteers, keeping in mind the environmental aspects, to plant at least one plant in their home yard, farm or any nearby areas and to nurture the sapling till it grows out to be a huge tree.

NSS PO's Prof. Dipak Wakde and Prof. Ritesh Raichana highlighted the importance of trees to NSS volunteers as 'Since the beginning trees have furnished us with two of life's essentials - food and oxygen. As we evolved, they provided additional necessities shelter, medicines and tools. Today, their value continues to increase and more benefits of trees are being discovered as their role expands to satisfy the needs created by our modern lifestyle'.

Accordingly students selected the empty places and the roadsides to plant saplings in a well-organised way. The saplings were arranged by the students themselves. In order to restore the eco-balance, the plantation drive was taken with all seriousness. Participants were highly enthusiastic to make it a big success. The students planted saplings, and fenced them and watered the plants. Every step of the programme was appreciated by Principal Dr. B. A. Rajput and many other representatives of the college administration and the local forest department officials. The programme created a great stir among the general public too.

About 140 students participated in this tree plantation programme and 180 saplings were planted.

REPORT

Awareness program on 'Waste Management and Waste to Best' organized at Comrade Godavari Shamrao Parulekar College, Talasari

National Service Scheme Department of Comrade Godavari Shamrao Parulekar College, Talasari organized a one-day awareness program on 'Waste Management and Waste to the Best' on 24th December 2021. For the event, Sunny Rai, Mahatma Gandhi Disability Training Center, Ahmedabad, Gujarat provided various demonstrations on how to manage waste and how to make beautiful handicrafts from raw materials.

Speaking on the occasion, NSS Program Officer Prof. Dipak Wakde said that in the daily life of a person, different types of solid waste are generated. It mainly consists of kitchen waste, gift house waste, etc. The amount of this solid waste is increasing day by day. Growing urbanization has created various environmental problems today, including solid waste disposal, which has become a major environmental issue.

The need of the hour is to find a solution to this solid waste problem through public participation and implement it properly. With this in mind, the government has launched a very effective scheme called Sant Gadge Baba Nagari Swachhta Abhiyan. Citizens need to show their participation in that. Solid waste generation in cities is becoming a complex and serious issue. If you think about the whole world, it is estimated that about 100 billion tons of waste are generated every year. If the annual waste generated around the world were collected in one place, it would become a mountain as high as Mount Everest. The United States is the world's largest producer of solid waste.

Speaking on the occasion, the keynote speaker Sunny Rai said that the beauty of the city and the village is being tarnished by the dumping of solid waste elsewhere; but it also raises a number of health issues. Fish, mosquitoes, rodents, and cockroaches are bred in large numbers at waste collection sites. A number of measures have been suggested for the proper disposal of solid waste.

The garbage generated in different parts of the city is collected, transported to a place far away from the city, where it is incinerated or used for compost manure or disposed of as such.

The need of the hour is to study the waste generated in the city as well as in the villages and how to manage and dispose of the waste properly. Garbage causes many health problems. If this problem of solid waste is not stopped in time, then future generations will have to face very big problems.

More than 50 NSS volunteer students attended the event. Prof. Ritesh Raichana thanked the audience and concluded the program with the national anthem.
